

San Francisco Estuary Project - A Comprehensive Conservation and Management Plan

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

San Francisco Estuary Project - A Comprehensive Conservation and Management Plan

Brief description of plan:

This CCMP presents a blueprint to restore and maintain the chemical, physical and biological integrity of San Francisco Bay and Delta, within the given urban context. The plan attempts to regain as much of the altered or destroyed wetland as possible, establish the highest restoration or target goals to ensure continuance of beneficial uses and provide a sustainable ecosystem.

Region the plan is located within:

Pacific Region

Watershed(s) included within the plan:

P090w

Area plan covers (in square miles):

1,600.00 square miles

Plan scale:

County

Plan's lead organization(s):

San Francisco Estuary Project

Plan's Main Contact Information:

San Francisco Regional Water Quality Control Board
1515 Clay Street
Suite 1400
Oakland, CA 94612
510-622-2465
www.sfei.org

On-line version of plan:

Date of original plan:

3/1993

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

There are separate goals relating to different program areas - aquatic resources, wildlife, wetlands, water use, pollution prevention and reduction, dredging and waterway modification, land use, public involvement, research and monitoring. Examples include - increase public involvement in the ongoing stewardship of the estuary, restore and enhance the ecological productivity and habitat values of wetlands, restore healthy estuarine habitat conditions to the Bay-Delta, taking into consideration all beneficial uses of Bay-Delta resources.

Plan recommends restoration of specific project sites:

N

Plan includes a discussion of funding sources:

N

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

Federal
State
Local
Business/Industry
Non-profit Organizations

Type(s) of public outreach included during plan development:

Was subject to a public comment period

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

S

Plan addresses monitoring/reference sites for project level monitoring by:

N

The plan discusses or coordinates with other restoration plans covering the same geographic area:

Y

Other plan names:

San Francisco Estuary Project

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

Only 44,371 acres of San Francisco estuary remain. 92% of historical tidal wetlands have been filled, diked or developed.
